CAREER

3 years of experience as React and Next.js Developer with hands-on experience in identifying web-based user interactions along with designing & implementing highly-responsive user interface components by deploying React concepts. Proficient in translating designs & wireframes into high-quality code, and writing application interface code via Javascript ReactJS and NextJS workflows.

PROJECTS

Brand overflow (App) (Website)

Brand overflow is an All-in-One SEO Software it has many tools that help to optimize and rank your website.

Topicmojo (App)

Topicmojo analyses popular search engines like Google and discovers every useful phrase or question people are asking around your keyword.

Mailwarm.io (Web app)

MailWarm.io is a marketing software it helps you to increase the chance of landing your emails in your inbox by monitoring and warming up your emails.

SEO Mojo (chrome web store)

SEO Mojo It's a simple plug n' play extension and gives you keyword volume, backlinks data

JustBogos (app store)

JustBogos is a React Native project that I build for the client. JustBogos is effortless to save money on groceries without having to clip coupons or search the weekly ads.
